

Mound Clay

Play Ball!® Mound Clay is the right solution for your pitcher's mound, bullpen, batter's box or catcher's box because it provides your players with the best possible foundation to play. Designed for use in high wear areas, Play Ball! Mound Clay is a high density beautiful red clay with unique characteristics, including:

- Easy to mold and use, right out of the bag.
- Dust free, consistent quality.
- Durable, long-lasting performance.
- The highest quality clay.

Successfully used at major league, minor league, college and high school fields around the US, this calcined clay infield product gives you the performance you need to keep your infield safe, playable and moisture-controlled. Works perfectly with Play Ball! Infield Conditioner and Play Ball! Infield Drying Agent, or with the premier infield conditioner, BallGame Changer™.
